

Activating & Registering your Autodesk Software On-line

During product activation, your serial number and product key are verified and licensed to run on your computer. Activation is only required for single-user Autodesk licenses. If you have a serial number and product key when you install your software, activation will be part of the installation process.

Activate On-line after Installation

The steps below illustrate the process of activating and registering your Autodesk software on-line the first time you launch a new program after installation.

To activate and register your software:

1. Launch your Autodesk product by clicking on the **(product name).exe** file, which may appear on your single-user access and is typically saved under your Programs (Windows) or Applications (Mac) folder.
2. Check the box on the **Autodesk Privacy Statement** screen and click the **I Agree** button to indicate your acceptance of the terms and conditions. The privacy statement only appears the first time you launch the software.

3. Click the **Enter Your Serial Number** or **Activate** button (depending on your software version) when presented with the Free Trial screen.

4. Enter your [Serial Number and Product Key](#) and click the **Continue** or **Next** button (depending on your software version).

5. Select **Connect now and activate!** And click **Next** if prompted to activate on-line. In most cases, activation will start automatically if you're already on-line.

Note: If you can't connect or have restricted Internet access you'll need to [manually activate your product.](#)

To Register During Activation:

If the Serial Number you entered hasn't been registered to an Autodesk Account, you'll be asked to either [create an account](#) or log in to your existing account to register.

1. Enter your **Autodesk ID** and **Password** and click **Login**. If you don't have one, click **Create User ID Now** and follow the on-screen instructions.

Log In

Are you a New User? Click "Create User ID Now".

Please enter your User ID, Password and click "Log in" to access the Autodesk service you requested. You can use your existing Subscription Center or Partner Center User ID and Password.

Registered Autodesk users are able to access various Autodesk services including:

- Product Registration and Activation
- Subscription Center
- Partner Center
- Web Support

Users from Japan with an existing Contact ID, please [click here](#).

The information you provide will be used by Autodesk to register and/or issue your activation code, to keep you informed about our products and services, and to ensure that you benefit from being an authorized Autodesk user. Autodesk does not sell or otherwise provide your information to anyone outside of Autodesk or our Authorized Business Partners. If you wish to correct your registration data, please click the link below to contact Autodesk or contact your local Autodesk office.
